Her said that no one from the public was at the public meeting. He also said that the requirements were that the antenna be at least 500 feet from a residence –

he had measured the distance at 501 feet. Village Counsel Filippini suggested a waiver so that the petitioner would not have to prove that the distance met the 500 foot minimum. The reason that the distance was needed was aesthetic and for safety. Responding to a question from the Board, Village Counsel Filippini said that the US Congress and the World Health Organization had said that cell towers posed no health threat.

Trustee Wachs moved to Direct Counsel to Prepare an Ordinance Regarding Allowance for a Wireless Telecommunications Facility and Related Equipment to be Located Within the Existing Structure at 1190 Old McHenry Road and Within the R-2 PUD District; seconded by Trustee Marshall

He noted that the petitioner was requesting to have 36 months for occupancy instead of 30 months; Tenancy at 50%; that the Ordinances would allow permitted changes such as fast food, drive-thru restaurants and auto dealerships; and Convenience store hours that could begin at 5AM instead of 6 AM –

Item #5: Ordinance Approving SUP For Modifying Geimer PUD Re: Arbor Grove PUD.

As directed by the Village Board during the June 22, 2010 Meeting, Village Counsel prepared the ordinance approving the Arbor Grove Preliminary Planned Unit Development. Staff will provide recommendations on these two remaining items during the Board Meeting.-

The general consensus amongst those Trustees that approve of the development was that the 50% tenancy and the increase to 36 months for occupancy would be acceptable. There was discussion regarding the fast food and drive thru element; but Village Counsel Filippini explained that the Ordinance did not create the right to any entity, only the right of the developer to ask. There was discussion as to what constituted a fast food restaurant, and also what would be included in an

auto dealership. * The Consensus of the Board was to disallow drive-thrus, and to follow the format used when setting up the Menards.

A basic overview of what will be on the Ordinance included some of the following highlights: 36 months occupancy; 50% tenancy; Auto dealerships for (primarily) new cars – no service for oil and auto as a stand-alone, only for ancillary purposes; 5AM opening for convenience stores; auto dealerships would not exceed 5 acres.

Trustee Schmitt believed that the PUD was premature, as there were no set plans that had been brought before the Board. Other Board members thought that it would be impractical to market a property without the developers having any idea of what would be allowed .

Trustee Wachs moved to Approve an Ordinance Granting a Special Use Permit for a Planned Unit Development and Approving a Preliminary Planned Unit Development Plat for the Property located at 2727 Route 53; seconded by Trustee Marshall.

President Rodriguez said that there is a great political will to build this extension. She said that the Village should concentrate on promoting the extension of Rte. 120. – **No action was taken.**

B. Old McHenry & Robert Parker Coffin Intersection Modern Roundabout – Update. Lake County Division Of Transportation concluded that the proposed modern roundabout would be an acceptable improvement. Staff responded that the Village had not made a decision regarding which improvement (no change, signals, modern roundabout) was preferred and suggested that the Village make a recommendation before proceeding further in case the modern roundabout concept was not supported by the Village. – President Rodriguez said that the Village needs to consider that some of the right of ways at the intersection of Old McHenry Road and Robert Parker Coffin are inside the buildings. While the consensus of the Board is to keep the stop signs; traffic lights would be a better alternative than a modern roundabout. There was concern that a roundabout might interfere with the historic look of the Downtown. It was also wondered how pedestrians might be affected, especially during festivals. Park District President Lee Bassett noted that roundabouts do work in New England, but that because traffic in the roundabout has the right of way, this might create complicated traffic patterns. For instance, during rush hour, traffic might get clogged up at the Bridge. President Rodriguez reminded the Board that because this was a County Road, they would be able to make the final choice; however, they had asked for the Village's preferences. Village Manager Lothspeich said that the Village would tell the County that the preference of the Village was not to have any change via a letter written by Staff - **No action was taken.**

C. IL Route 22 Widening – West Of IL 83 – Update. – President Rodriguez asked if there were any suggestions from the Board. Trustee Barry said that he would like to see a walking path from Old McHenry to North Krueger. – **No action was taken.**

D. . Pathway Money – President Rodriguez said that Representative Sullivan said that the Village was awarded Pathway money. She wanted to know how the Board wanted to disperse that money. One option was to use the money to reimburse the Village for previously built paths. Trustee Acuna suggested that the Village reimburse itself for paths built, and then make certain to document that the money was earmarked for paths. Trustee Barry would rather see more paths built. President Rodriguez said that the Village could leave open the possibility to reimburse itself. The money to be received is \$250,000.

Village Manager Lothspeich said that the issue would be presented to the Board in the form of a Resolution at the next meeting. – **NO action was taken.**
