VILLAGE OF LONG GROVE

3/5/2012

Dear Mr. Polk,

I am writing this letter to you on behalf of Poul's Landscaping and Nursery. This letter is a request for a "temporary use" permit for our company. Poul's has been a successful, contributing member of the Long Grove business community for many years. In these challenging, economic times, we are doing everything we can to continue to not only maintain our success, but to think of new ways to prosper and in return contribute to the community.

Poul's would like to host Haunted Hayrides in conjunction with a Pumpkin Patch and a possible Corn Maze.

Starting approximately mid September through October, weekends only, Poul's would like to have "Haunted" Hayrides. We would begin the rides in the afternoon and end by approximately 10:30pm. The ride would proceed throughout the nursery trails that already exist at a slow pace. As they venture on their ride, we would have various Halloween and Haunted effects scattered throughout the trail. The final ride for the evening will end at 9:30pm with the event ending by 10:30pm.

We would like to have a camp fire where patrons can gather to sit and visit after their ride. We will have water, pop and cider for beverages along with popcorn, hotdogs and chips, taffy apples and s'mores.

As per our conversation, by phone, I am sending this letter to you for your consideration. After you have had a chance to review our request, please advise us if you think we will be able to proceed with attaining a permit and all the necessary information and paper work. If there is any other information that you need, please let me know.

Thank you for your consideration,

Kathie Smith
