

VILLAGE OF LONG GROVE

ORDINANCE NO. 2013-O-17

**AN ORDINANCE ESTABLISHING A POLICY FOR
DEFINING VILLAGE-FUNDED ROADS**

WHEREAS, President and Board of Trustees of the Village of Long Grove (the "***Village Board***") have undertaken a thoroughgoing examination of the Village's roadways and capital infrastructure over the past two years; and

WHEREAS, the Village Board's examination has revealed that, while most residents live on private roads within subdivisions, some of the subdivisions in the Village are currently served with public roads; and

WHEREAS, the distinction between subdivisions served by private roads and subdivisions served by public roads has resulted primarily from changing times and not from any sound public policy necessity; and

WHEREAS, in addition to public subdivision roads, the Village also is responsible for the remainder of the Village street system (which contains over 80,000 lineal feet of roadways) and other infrastructure that requires regular maintenance, repair, and improvement (the "***Village Infrastructure***"); and

WHEREAS, the Village Board has determined that the Village cannot meet its obligations relating to the Village Infrastructure without reducing its overall responsibilities for such infrastructure and increasing its revenues to care for the remainder of the Village Infrastructure; and

WHEREAS, consistent with the Village Code and the functionality of various roadways that are part of the Village Infrastructure, the Village Board has identified those public roadways that are appropriate for maintenance by the Village with public funds; and

WHEREAS, in recognition of the financial responsibilities relating to the Village Infrastructure, as well as the lack of any clear public policy necessity to preserve some

subdivision roads as public while many subdivision roads are and have been private, the Village Board has determined that it is in the best interests of the Village and its residents to (i) identify those portions of the Village Infrastructure that should remain as Village-funded roadways, and (ii) establish the following policies with respect to those roads that are currently part of the Village Infrastructure that should be privatized;

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF TRUSTEES OF THE VILLAGE OF LONG GROVE, LAKE COUNTY, ILLINOIS, as follows:

SECTION ONE. RECITALS. The foregoing recitals are incorporated as if fully set forth in this Ordinance.

SECTION TWO. IDENTIFICATION OF VILLAGE ROADS. The Village Board hereby adopts and approved the map attached hereto as Exhibit A (the "***Road Classification Map***"), which map identifies current public roads in the Village street system as "Village-Funded Roads" or "To Be Privatized." The Village Board further adopts and approves Exhibit B attached hereto (the "***Roadway List***"), which identifies current public roads in the Village street system as "Thoroughfares" (which correspond to the "Village-Funded Roads" in Exhibit A) or "Non-Thoroughfare" (which correspond to the "To Be Privatized" roads in Exhibit A).

SECTION THREE. POLICY WITH RESPECT TO "TO BE PRIVATIZED" ROADS. The Village Board hereby ordains that those roadway segments that are part of the current Village street system and identified on Exhibit A as "To Be Privatized" shall, by 14 November 2014, either:

- A. Be vacated by action of the Village Board; or
- B. In the event that the owners and electors within certain subdivisions or other areas of the Village served by "To Be Privatized" roads desire to be included within a special service area, be included within a Village special service area that will be established for purposes of fully funding the maintenance, repair, and improvement of the To Be Privatized roads within the territory of the special service area.

SECTION FOUR. IMPLEMENTATION OF ROADWAY POLICY. The Village Board hereby directs the Village Manager to undertake the following with the assistance of the Village Engineer, Village Attorney, and staff, in furtherance of the implementation of the policy set forth in this Ordinance:

- A. Promptly commence communications and education efforts with those subdivisions and residents residing upon or served by a To Be Privatized road of this Ordinance and the options available to them;
- B. Provide information and prepare documentation for the possible establishment of special service areas with respect to any To Be Privatized roads where desired by the residents residing upon or served by such To Be Privatized road(s);
- C. Assist residents in the formation of homeowners' associations or other legal mechanisms to finance the maintenance, repair, and improvement of To Be Privatized roads;
- D. Prepare all appropriate documentations for the final vacation of the To Be Privatized roads that will not be served by a special service area;
- E. Take such other actions that are necessary or convenient to facilitate the implementation of this Ordinance, including presentation to the Village Board of such ordinances or other actions to promote the policies herein expressed.

SECTION FIVE. EFFECTIVE DATE. This Ordinance shall become effective following its passage and approval in the manner provided by law.

PASSED THIS 12th DAY OF NOVEMBER, 2013.

AYES: Trustees Barry, Lyman, Wachs, and President Underwood

NAYS: Trustees Borys, Marshall, and Yaeger

ABSENT: None

APPROVED THIS 12th DAY OF NOVEMBER, 2013.

Private roads, sixty six foot (66') easement. These may be permitted where, in the judgment of the plan commission, the public interest is best served thereby. Private roads shall not be permitted in developments having an individual lot containing less than two (2) acres. In general they must conform to the following conditions:

(a) Wherever possible, private roads shall be limited to cul-de-sacs, serving no more than ten (10) homesites.

(b) If it proves necessary to form a loop return having access at two (2) points on a public street, it shall be so laid out as to discourage through traffic.

(c) No private road shall have access on more than one public street. (Ord. 98-O-14, 5-26-1998)
