Understanding Projects and Permits

A **"Project"** consists of one or more **"Permits."** The number and type of individual permits required per project is determined based upon the different trades and contractors involved in the project. For example, an Interior Alterations project might consist of four permits: building, electrical, HVAC, and plumbing.

"Building Permit Revenue Total" includes total fees collected for all **"Permits Issued"** this month, plus any application fees paid for new project submittal, and any miscellaneous building permit fees collected on existing permits, i.e. re-inspection fees, permit extension fees, etc.

"Projects Started" is the number of new projects which have been **submitted** to the Village for permits during this month; these projects are in the process of review and their corresponding permits might not be issued until a future month. Permit fees for Projects Started will be reflected during the month of those permits' issue.

ECE-100110	1518 SUMTER COURT	Resolved	Date Filed: 09/01/10
	<p>09/01/10: Ivan Kostic and Bob Block went on site and noticed the generator was installed. Spoke to homeowner Teresa O'Meara and she said the generator was just installed in August. Her husband was to apply for generator permit. The generator work was started without a permit. A new electrical contractor installed the generator. The permit fee for the generator is going to be \$50.00 application fee, \$220 permit fee, \$220 penalty for work without a permit. The Village will release the addition permit security deposit of \$1,500 after the generator permit fees are paid. The addition final inspections was approved in May 2010. Village Manager Dave Lothspeich and Bob Block agreed to release the full amount of \$1,500 without penalty reduction. Bob Block inspected the generator landscape screening is installed and \$500.00 security deposit will not be required with the generator permit.
