Subject: Water Project Groundbreaking Wednesday - Important Note from Construction Firm

Dear Neighbors,

We're pleased to announce that construction on the water main will begin next Wednesday. If you're interested in learning all about the project from the Lake County engineering team, the County will be hosting an informational meeting Tuesday, April 17 at 7 p.m. at the Vernon Township Hall on Main Street ([map](#)).

For the project's first phase, the crew will install a water main that starts at the end of Rock Dove, then south down Teal Lane, and turning into Golden Eye. At the meeting, Project Manager Heather Galan will show us the many phases and discuss the process and tentative timeline...as well as answer any questions.

If you have any questions you would like us to forward Heather before the meeting, please send us an email. Otherwise you're welcome to ask the question during the meeting or contact Heather directly at [847.377.7141](tel:847.377.7141) or HGalan@lakecountyil.gov.

Also, we'd like to forward along [the below](#) IMPORTANT message from the construction firm, Joel Kennedy Constructing Corp (also attached).

Many thanks,

-Your HLHA Board

Memo From Joel Kennedy Constructing Corp.

**Herons Landing Water Main Project
Herons Landing Subdivision**

Please be advised that major construction work will begin on April 18, 2012. Joel Kennedy Constructing Corp. will be installing a new water main and lateral services via horizontal directional drilling to residences within Herons Landing Subdivision.

For safety and convenience it is advised to find alternate routes to avoid the construction zone. In addition, there will be no street parking during working hours along the route.

The contractors work schedule will be Monday through Friday, 7:00 am to 5:00 pm (and possibly Saturdays, if necessary). Work may proceed past 5:00 pm on some rare occasions due to the directional drill process.

With everyone's help and cooperation this project could be completed early.

For specific questions regarding the project please contact Heather Galan from Lake County Public Works at [847.377.7141](tel:847.377.7141).
