VILLAGE OF LONG GROVE

ORDINANCE NO. 2012-O-__

**AN ORDINANCE AMENDING SECTION 4-1-2 OF THE
LONG GROVE VILLAGE CODE RELATING TO USE OF PVC PIPE
IN POTABLE WATER SERVICE SUPPLY LINES**

WHEREAS, on September 8, 2009, the President and Board of Trustees of the Village of Long Grove adopted Ordinance No. 2009-O-32 adopting by reference, *inter alia*, the 2009 International Building Code as the Village's Building Code subject to various amendments, additions, revisions, and deletions codified in Section 4-1-2 of the Long Grove Village Code ("**Building Code**"); and

WHEREAS, the President and Board of Trustees of the Village have determined that it is in the best interests of the Village and its residents to amend the Building Code to provide that, wherever use of copper piping is required in the construction of potable water service supply lines and related systems, PVC piping may be used in the alternative, provided that PVC piping provides adequate strength and use of copper piping is not otherwise required by applicable laws or regulations; and

WHEREAS, the President and Board of Trustees have determined that it is necessary and appropriate, and in the best interests of the Village and its residents, to revise the Building Code to permit such use of PVC pipe;

NOW, THEREFORE, BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF LONG GROVE, LAKE COUNTY, ILLINOIS, AS FOLLOWS:

Section 1: Recitals. The foregoing recitals are hereby incorporated herein as findings of the Village Board of Trustees.

Section 2: Amendment to Section 4-1-2. Section 2, entitled "Amendments," of Chapter 1, entitled "Building Code," of Article 4, entitled "Building Regulations," is hereby amended to add the following provision immediately above Section 101.4.3:

Passim Wherever the term "copper" is used to refer to pipe material requirements for the construction of potable water service supply lines or related systems, it shall be deemed to include "copper or PVC piping; provided, however, that (i) PVC piping may only be used if it provides comparable strength to copper, or provides the minimum strength required by the Building Code and all other applicable laws and regulations; (ii) all standards and regulations relating to the application of such PVC piping are complied with; and (iii) use of copper piping is not required by any other applicable law or regulation. For purposes of this Code, Polyethylene HDPE, ASTM D-2239 is an acceptable grade of PVC piping."

Section 3: Effective Date. This Ordinance shall be in full force and effect from and after its passage, approval, and publication in pamphlet form in the manner provided by law.

PASSED THIS __TH DAY OF MAY, 2012.
