ISOLATED WETLANDS BOUNDARY VERIFICATION**

Dear Mr. Lothspeich:

This letter is a follow-up to our preliminary wetland jurisdictional determination (PJD) letter for the subject trail project dated July 24, 2014. The Lake County Stormwater Management Commission (SMC) re-visited the project area on November 3, 2014, for the purpose of reviewing the boundaries of isolated Wetland 2 and Wetland 3 delineated by Hey and Associates, Inc. (Hey).

Based on our observations, SMC concurs with the flagged/staked boundaries of Wetlands 2 and 3 as delineated by Hey and as generally depicted on the enclosed Exhibit 1: "Surveyed Wetland Boundaries on Aerial Photograph," by Hey (not dated). The surveyed wetland boundaries will need to be included on the project plans for permitting purposes.

This isolated wetland boundary verification is valid for a period of three (3) years from the date of this letter, unless new information warrants a revision before the expiration date.

Watershed Development Permitting Considerations

The WDO requires a Watershed Development Permit (WDP) issued by SMC for proposed public road development projects, including trails. You should contact Mr. Robert Gardiner, SMC's permit engineer, at 847-377-7704 for the appropriate permit application form and procedures with respect to the WDO Standard Provisions and Juli Crane at 847-377-7708 for approval of the project with respect to the WDO Isolated Wetland Provisions. SMC's written authorization will be required for proposed IWLC impacts as part of the WDP. Please note that a survey of the approved wetland boundaries will need to be included on the project plans for permitting purposes. If you would like to schedule a pre-application meeting to discuss the WDO permitting issues for the project, please contact our Executive Assistant, Christine Garner, at 847-377-7705.

We would like to be of assistance. If you have any questions, or would like to set up a meeting, please call our office at (847) 377-7705 or e-mail Juli Crane at jcrane@lakecountyil.gov. If you have any additional concerns that have not been addressed by the regulatory staff, you may contact Chief Engineer Kurt Woolford kwoolford@lakecountyil.gov or Executive Director Michael Warner mwarner@lakecountyil.gov at (847) 377-7700.
